When Coal was First Used

Thought coal had been employed for

centuries in the manufacture of salt

on shores of the coal fields, with

the discovery of the fact that the

mineral was used as a novelty in

1800, and according to the Contem-

porary Review, at Drottweig wood

and leaden pans were in use up to

1801. In this case the salt manu-

facture was in the zenith of its

prosperity, and the substitution of

the mineral salt, which by the

discovery of the fact that the

mineral was used as a novelty in

1800, and according to the Contem-

porary Review, at Drottweig wood

and leaden pans were in use up to

1801. In this case the salt manu-

facture was in the zenith of its

SOME OLD LITTLE ITEMS.

England has eighty miles of tunnels. A leech has three jaws, which form a triangle.

Japanese dentists pull teeth with the fingers.

The cost of the Capitol at Washington has exceeded \$300,000,000.

A penny changes hands 120,000 times in the course of a lifetime.

Consumption is said to be unknown where cow's milk is not used.

The turtle on live for nearly a century and the rike for about 175 years.

The average weight of the dretling blood in the body is about twenty-eight pounds.

Official gardeners produce "changeable roses," which are white in the shade and blood-red in the sunlight.

German dentists now make false teeth of paper. They are said to be the most natural imitation of the real article and last for years.

In Hawaii the climate is said to be remarkably equal to the Hawaiian language has no word to express the general idea of weather.

A vegetable irrigator is owned by a resident of Wenatchee, Wash. It consists, it is claimed, of a network of large potatoes grown one upon another.

What are said to be the largest pair of driving wheels in the world are being constructed for the New York Central Railroad. The wheels when complete will be 17 feet in diameter.

There is now living within a radius of ten miles of Ashland, Me., eight American women who are the mothers of 102 children, eighty of whom are still living in the enjoyment of good health and sound minds.

With nothing but a jackknife, Adolph Sphing, a Marquette school boy, has contrived the frame of a clock resembling an ancient castle. He used various kinds of wood and worked on the job for two years.

One of the largest forests in the world stands on ice. It is situated between the Ural River and the Obokh Sea. A well was recently drilled in this region, and it was found that at a depth of 50 feet the ground was still frozen.

A Chicago shoe manufacturer makes 30,000 pairs of "laid men's" shoes every month. The soles are of pasteboard, covered with galvanized paper, and the uppers are pulled over and creased with a rubber roller in a machine which does the shoe to the foot.

The longest single span of wire in the world is used for a telegraph wire, and is stretched over the River Kitta, India. It is 9,000 feet long and is stretched from the top of one mountain to the top of another.

One gets a idea of the loneliness of the Pacific when learning that the City of Tokio, so long overcast by broken her sails and taken to wreck, covered 1,340 miles without seeing a ship. She went out of her way in the hope of meeting a sister ship and receiving aid.

A woman in Delaware was blacklisted because of a coal bill which she alleged she owed and would not pay. Because of the blacklisting she was unable to obtain credit, and a remedy commenced out for \$10,000 damages. Recently a jury returned a verdict in her favor for \$5,000.

A human army officer who has been experimenting in the training of crows to carry dispatches says that those birds are superior to carrier pigeons for messenger service. The fowls are much stronger, and some of them carried a weight of four pounds without material hindrance to speed.

Here is the time-table for 1913. Last Monday February 15; Easter Day occurs on April 2; Washington's Birthday, February 22; on Washington's Birthday, the President, Saturday, March 4; St. Patrick's Day, March 17; Friday, Fourth of July, Tuesday, July 4; Monday, September 2; Christmas, December 25.

Any person purchasing one penny bottle or more of any of the following brands of soap is entitled to the Memphis "Herald" for one week only. No cash for soap and no return of soap. Write to the Memphis "Herald," P. O. Box 100, Memphis, Tenn.

**Advice to Young Men.**  
Remember that in the morning of life come the hard working days. Hard work never killed a man. It's fun, recreation, relaxation, holidays, that kill. The fun that results in the fun, the next morning, being so hard that a man could hardly ever do it. Hard work never does.

Those who come after us have to work just as hard as we have. You can't afford to do anything but what is good; you can't afford to spare all the time.

Don't be afraid of ponding perpetually at one thing. Don't be afraid of being called a one-day man, or a crank.

Carlson's German Liver Soap is the most pleasant and effective remedy known to get rid of pimples, the kidneys, liver and bowels, and to cleanse the system generally. It cures habitual constipation permanently. Write to the Memphis "Herald," P. O. Box 100, Memphis, Tenn.

**The Confessional Betrayed by an Echo.**  
Perhaps the most interesting echo, partly because of its history, is that in the Cathedral of Girona, in Spain, where the slightest whisper is borne with perfect distinctness to the great organ. The fact that a faint whisper could be thus carried 300 feet was discovered accidentally by a monk who overheard the confession of a fair sister, the confessional being just at the foot of the organ.

**The Wonderful "Jacob's Sink."**  
Early in the spring of 1892 a certain citizen of Henrico, Mexico, fitted out an expedition for the purpose of exploring the country to the south of the American Continent.

known, traditionally at least, for more than 100 years; under its present name, however, since 1901, when "Lucky" Jacob, intrepid scout and enterprising friend of the great Western explorer, ventured to break the perfect stillness and break the perfect stillness and break the perfect stillness.
